

Project Timeline

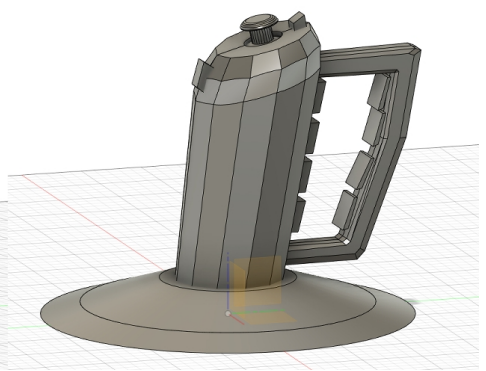

First Design

Second Design

Third Design

First Design:

- The original design
- Developed during assignments 1-3
- Large 17cm tall controller that was very blocky
- regular arduino used

Second Design:

- The revised design
- developed during assignments 4&5
- More ergonomic
- Height reduced to 13cm
- still a little too big
- using a micro arduino

Third Design:

- developed during final assignment
- Ergonomic curved added to the top
- radius of main body reduced
- height reduced to 10.5 cm
- added curved to handle for more ergonomics
